

# Residential Color Chain-Link Fence System

Meridian color chain-link provides the corrosion protection of zinc in addition to the durability and attractive appearance of polyester framework and extruded polyvinyl chloride fabric.

**CORROSION RESISTANCE** Zinc-coated steel framework that is thoroughly cleaned during the pre-treatment process, then color coated with a 3 mil minimum polyester layer for dual protection from corrosion.

**LONG SERVICE LIFE** All galvanized wire has a 15 mil minimum extruded polyvinyl chloride coating for dual protection from corrosion and the elements.

**SUPERIOR STRENGTH** Fittings are made of galvanized steel with a 6 mil minimum of polymer coating for added protection.

**SECURITY** Treating components with both zinc and an electrostatically applied color coating helps them provide years of protection and security.

**CONFIDENCE** 12-year limited warranty provides confidence and assurance that you've selected one of the best color chain-link fence systems available.  
Meets ASTM F 668 Class 1 & ASTM F 668 Class 2A specifications

# Color Systems

Meridian is the perfect choice for property owners who need the strength and protection of a chain-link fence system plus an appearance that blends in beautifully with the environment. Meridian defines property lines, encloses animals, as well as protects and adds value to any property. For added privacy, choose from different types of decorative polyethylene slats tinted to match the shades of Meridian color chain-link systems.

Note: Due to manufacturing variances and limitations in the production process, colors may vary from this brochure. Contact Vinyl Deck & Dock for actual color samples.

## Material Specifications

### Chain-Link Fabric

|         |                                                                           |
|---------|---------------------------------------------------------------------------|
| Type    | Polyvinyl chloride extruded over zinc-coated steel per ASTM F 668 Class 1 |
| Gauge   | 9 gauge finish 2" X 2"                                                    |
| Heights | 4', 5' and (6' Available)                                                 |

### Fittings

|                           |                                                                              |
|---------------------------|------------------------------------------------------------------------------|
| Tension and Brace Bands   | Polymer coating, 6 mils minimum, over hot-dipped galvanized pressed steel    |
| Caps, Eye Tops, Rail Ends | Polymer coating, 6 mils minimum, over hot-dipped galvanized pressed aluminum |
| Sleeves Tie Wires         | Polymer coating, 6 mils minimum, over hot-dipped galvanized steel            |

### Framework

|          |                                                                                                                                                                                                                                                                                                                                  |
|----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Type 2   | Polyester resin, 3 mils minimum, over galvanized steel ASTM F 1043, Group 1C, with a minimum yield strength of 50,000 PSI. Protective coating per ASTM F 1043, external coating Type B, zinc with organic overcoat, 0.9 ounces per square foot minimum zinc coating with chromate conversion coating and verifiable polymer film |
| Top Rail | 1-3/8" O.D. 16 Ga. pipe                                                                                                                                                                                                                                                                                                          |
| Post     | 1 5/8" or 2" 16 Ga. pipe                                                                                                                                                                                                                                                                                                         |

### Swing Gates

|           |                                   |
